= "NEW" Digital Salt Tester =

(Handheld Type:DMT-20)

This tester is a dual purpose SALT with Temperature.

MODE

Shows salt concentration in food as a percentage. It helps you monitor your daily salt intake.

APPLICATIONS

Salt content of food and salt intake monitoring Standardization of taste in food manufacture Salt water swimming pool testing Hydroponic feed delivery testing

GENERAL FEATURES AND SPECIFICATIONS

Auto Calibration & Auto Temp.(°C /°F) Exchange Gold plated waterproof sensor probes Hold button to freeze the reading Batteries 2 x CR1632 supplied Battery life 6 months (used 3 times per day) Dimensions 30h x 30w x 195d mm

SPECIFICATIONS FOR SALT

Conductivity measurement method

Range : 0.0 - 5.0% Resolution : 0.1%

Sample temperature range: 0 - 70°C

SPECIFICATIONS FOR THERMOMETER

Range: 0 - 100°C

Accuracy: ±1°C of reading (@0 - 70°C)

COMPONENTS

Supplied with case, sample spoon, sensor protection cap, operation manual, 0.9% saline solution, Hanger Strap
