Pure Skin Basic Step Exfoliator

AHA keratin of skin toner to foster a self-sustaining itself

# Keratin Toner

'Pure Skin Basic Step Exfoliator'

### AHA + BHA + Carbonated water

With the exfoliating toner from **Let's Cure**, it not only exfoliates old, thick and hardened dead skin, but also functions for skin relief, elimination of waste, and pore care.

Exfoliation toner is made with rational mix of AHA and BHA along with natural ingredients, concerning sensitive skins.

### Maintains the right pH balance

pH balance is important to maintain smooth skin. Since regular dead cell elimination and circulation is possible with the use of Let's Cure exfoliation toner, skin can maintain the pH balance for long time without relying on the product.

Old dead skin cell and pore care!  
Regaining the enhanced collapsed skin circulation!  
AHA (exfoliation) > BHB (exfoliation) >  
Natural ingredient (skin calming + moisturizing) >  
Light skin texture (Skin that will be expressed)

### Moisturizing and calming effect

The more sensitive your skin is, the better chance you have for irritation after the exfoliation. Natural ingredients such as witch hazel, aloe and galactomyces are bottled to balance and stabilize your skin.

### Skin-friendly hypoallergenic care

Reasonable mix of AHA and BHA allows people who had difficulties using scrubs or with sensitive skin to easily exfoliate daily with balanced pH.

### Natural exfoliation

Not only the dead cells are exfoliated when using the products at the time, but also AHA and BHA helps the unnecessary left over dead cells to be exfoliated by itself.
